OUR FOLLOWFOOD PRINCIPLE.

A SUSTAINABLE MOVEMENT.

followfood is more than just a company - our vision is to transform the food industry and we are dedicated to sustainably sourcing and producing food. Our followfood fish products have consistently focussed on sustainability and transparent communication of origin and fishing method since 2007. With our followfood soil saver products we are committed to a new, regenerative organic agriculture that sets higher standards than being organic. Additionally, we refrain from using additives and genetic engineering wherever possible - even when organic regulations allow them. Together with our customers we want to change the world. That is why we are particularly proud to be climate neutral since the beginning of 2021.

- 📍 Over 2 million customers (and counting) believe in our sustainable fishing movement.
- 📍 The most respected accreditations for sustainability under one brand. Our farmed fish are from 100% organic aquaculture. Our wild fish comply 100% with the strict guidelines of the MSC or Naturland Wild Fish. And our ingredients always come from organically farmed sources. Exceptions: None!

WANT TO KNOW MORE?

Follow your product: simply scan the QR code from the product packaging and enter the tracking code at www.followfood.de. This way you can really find out everything about origin, carbon footprint, eco-balance and much more.

INTERESTED IN SELLING OUR PRODUCTS?

Would you like to bring the followfood movement to your country? Then simply get in touch with us. We can sticker any of our products or translate them into your language.

OUR SOIL SAV(I)OUR PRODUCTS.

100% ORGANIC.

Our "Bodenretter" Soil Saver Initiative.

We support farmers who are willing to develop their organic farming methods even further. Our Soil Initiative promotes regenerative agriculture that is soil-friendly and goes beyond the current standards required for organic accreditation. Let's keep our soil healthy!

- 🍕 Our pizzas are baked in a wood-fired oven by a family business in northern Italy.
- 🍕 All our ingredients are organic certified, including the wheat and spelt used for our thin and crispy pizza bases.
- 🍕 Our seafood pizzas contain fish from organic aquaculture or from certified wild fish sources.
- 🍕 The dough we use is left to rise for up to 24 hours and is made with fresh spring water from the Dolomites for a unique taste.

- 📍 Our frozen vegetables come from German Demeter cultivation - the highest organic standard in Germany.
- 📍 Our freshly harvested vegetables are carefully processed so as to preserve their natural vitamins and nutrients.
- 📍 The ingredients we use in our ready-made meals and sorbets exceed EU organic requirements by far.
- 📍 We use zero artificial preservatives and additives in our frozen products.
- 📍 For every sold followfood product, 5 euro cents are invested in our "Bodenretter" Soil Saver Fund.
